Action plan for a severe reaction

1. **Lie flat** with your feet up until help arrives. If breathing is difficult you can sit, but do not stand or walk.
2. **Use your Jext[®]**.
3. **Call 999** for an ambulance and say you are having anaphylaxis (“ana-fil-ax-is”).
4. If there is no improvement after 5-15 minutes use your second Jext[®] in the other leg.
5. Take antihistamines as prescribed (if not already taken). If you are asthmatic use reliever inhaler.

If in doubt or rapidly deteriorating, use your Jext[®].

Medical observation in hospital is recommended after anaphylaxis.

Always keep your 2 Jext pens with you at all times.

How to give Jext[®]

Follow the action plan below if you have symptoms of a **mild or moderate allergic reaction**, such as:

- Swelling of lips, face, or eyes.
- Hives or welts.
- Tingling mouth.
- Abdominal pain/ vomiting.

Action plan:

1. Locate your Jext[®].
2. Take antihistamines as prescribed.
3. Phone family/ emergency contact.
4. **Watch for worsening symptoms; if in doubt or rapidly deteriorating use your Jext[®].**

Store Jext[®] in a cool dark place at room temperature; keep out of direct sunlight and avoid extreme temperatures (e.g. fridge). For more information and to register for a free expiry alert service visit:
